

Fall

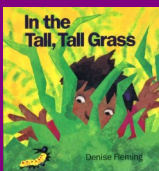

October 2nd—20th

Through songs, poems, books, discussions and activities the children will learn about the season of autumn. They will learn the characteristics of the weather that mark the start of autumn. The children will be introduced to the joys of falling leaves and the traditional sights

Insects and Bugs

October 23rd — November 3rd

This unit on insects and spiders will introduce the children to some of the 'bugs' that they may encounter while exploring the world of nature around them. The children will learn the basic characteristics that classify insects as such. The children will learn about ants, bees, grasshoppers, ladybugs and spiders.
