

Summer Fun Clifford Makes a Friend June 18th — July 6th

This is a fun unit that explores the season of summer. The children will learn about the typical weather that summer brings and traditional summer time events and activities.

Dinosaurs July 9th—July 27th

Dinosaurs capture the attention of young and old, and the preschoolers are no exception to the rule. The children are always eager to learn about dinosaurs, so this unit introduces the children to these prehistoric creatures. The children will learn several dinosaur names, they will learn about the size of the dinosaurs, their physical features, their diet, and their habitats. The children will be introduced to the words “paleontologist” and “fossils”. The children will also learn the word “extinct” and understand
